RAINFALL FORECAST FOR NEXT FIVE DAYS

2022 April 13	2022 April 14	2022 April 15	2022 April 16	2022 April 17
Light rain	Light rain	Light rain	Light rain	No rain

C. General and Agrometeorological Advisories for Thrissur District

If heavy rainfall is expected, provide proper drainage in the cropped field. Harvest the crop as early as possible. Propping of the banana plants recommended. Additional support of the pandals recommended. Keep away from open fields to avoid lightning stroke to livestock and farmers in the afternoon

Crop	Pest/ Disease	Crop/ Animal Advisory
Rice (Puncha) Maturity stage	Precautions	Lodging due to water logging. Provide proper drainage facilities
Banana	All stages	Lodging due to heavy wind. Provide staking for support i.e. Propping of the banana plants recommended.
Vegetables	All stages	Heavy rainfall results in the flooding of the cropped field which damages the crop in the maturity stage. Provide proper drainage in the cropped field. Lodging due to heavy wind. Additional support of the pandals recommended.
Animal Husbandry		Keep away from open fields to avoid lightning stroke to livestock in the afternoon
