2022 May 18	2022 May 19	2022 May 20	2022 May 21	2022 May 22
Moderate rain	Moderate rain	Moderate rain	light rain	Moderate rain

C. General and Agrometeorological Advisories for Thrissur District

Proper drainage facilities have to be ensured. Crop management is required for agricultural crops before monsoon season. If the soil is more acidic, add lime as per soil testing.

Crop	Pest/ Disease	Crop/ Animal Advisory
Rice (Puncha)	Harvesting stage	Since there is a chance of lodging due to water logging, provide proper drainage facilities.
Rice (virippu)	Land preparation	It is recommended to sow dhaincha seeds in the paddy field before virippu planting
Banana	All stages	Since there is a chance of lodging due to heavy wind, provide staking for support. Propping of the banana plants were recommended.
Vegetables	All stages	Since there is a chance of lodging and fruit fall due to wind. Provide staking for support strengthens the pandals. Heavy rainfall results in the flooding of the cropped field which damages the crop in the maturity stage. Provide proper drainage in the cropped field.
Animal Husbandry	Avoid water logging near the cattle shed. Ensure proper ventilation in the cattle shed. The poultry shed should be kept free from moisture. Stir the litter occasionally and add fresh litter if required. (CAADECCS, KVASU, Mannuthy).
