### C. General and Agrometeorological Advisories for Thrissur District

Since lightning is expected, avoid agricultural activities. Crop protection measures such as fertilizer application and pesticide application should be temporarily suspend. Neither keep the livestock in open places, not allow them for grazing. They should be sheltered under strong roofs. Proper drainage facilities have to be ensured.

Crop	Pest/ Disease	Crop/ Animal Advisory
Paddy-virippu Tillering stage		To avoid water logging in agricultural fields, keep all drainage channels in open condition.
Banana		Provide propping to banana plants. Ensure proper drainage facilities to avoid water logging in banana gardens.
Vegetables		Since there is a chance of strong wind, strengthen the vegetable pandals. Harvest ripped fruits and vegetables as soon as possible. Ensure proper drainage facilities to avoid water logging.
Animal Husbandry <small>(CAADECCS, KVASU, Mammuthy).</small>		The sawdust in poultry shed should be stirred from time to time and if necessary, new sawdust should be added. Extend overhanging roof of poultry shed to avoid rainwater falling inside the shed.
Fisheries		Fish farmers should adjust the water level according to the storage capacity of the pond to avoid overflowing the ponds and loosing of the fishes.
