

**KERALA AGRICULTURAL UNIVERSITY**

**PROSPECTUS FOR ADMISSION TO**

**M.Sc.**

**ENVIRONMENTAL**

**SCIENCE**

**2024-25**

## 1. INTRODUCTION

The M.Sc. Environmental Science program offered by the College of Climate Change and Environmental Science is a two-year M.Sc. Environmental Science program. It provides comprehensive education in various subjects concerning environmental science and sustainability, ensuring students acquire theoretical knowledge and practical competencies. This interdisciplinary course encompasses themes such as Environmental pollution, Conservation, Climate Change, Sustainable development, and Natural resource management. Through theoretical studies, fieldwork, and research projects, students develop a profound grasp of environmental processes and their interaction with human actions. Graduates are well-prepared for impactful roles in environmental research, policy formulation, consultancy, education, and advocacy, contributing to the responsible management and protection of nature and our environment.

## 2. COURSE OBJECTIVE

- To equip students with a thorough understanding of the fundamental principles and concepts of environmental science.
- To develop students' research and analytical skills in the areas of environmental management, conservation, and sustainability.
- To provide students with practical knowledge and experience in the use of advanced technologies and tools for environmental monitoring and assessment.
- To foster students' ability to critically evaluate and analyze complex environmental issues and propose effective solutions.
- To prepare students for careers in environmental research, consulting, policy, education, and advocacy.
